REMARKS/ARGUMENTS

Please amend the application as indicated above before examining the above-referenced application.

Claim 21, which was omitted from the original claim set, has been canceled. Claims 3 and 23 have been amended to correct a punctuation error.

Fig. 4 was unintentionally omitted from the submitted application. However, the application as filed included a clear and accurate description of the content of Fig. 4 including each element shown therein. Accordingly, the submission of Fig. 4 by amendment does not constitute the addition of new matter since support for Fig. 4 as filed can be found in the application. Pages 16-18 describe the content of the Fig. 4 in detail. Each element and reference number of Fig. 4 is already mentioned in the text, so no amendments to the text relating to Fig. 4 have been made.

Respectfully submitted,

February 5, 2004
